

Subject: DRECP Stakeholder and Agency Field Tour of Potential Renewable Energy Sites

The REAT agencies have organized another field visit to look at potential renewable energy areas in the desert. On Friday, October 14, 2011, we will be caravanning from Hesperia City Hall parking lot to several locations in the desert. A 4-wheel drive vehicle is not necessary but one with good ground clearance is recommended. Wear appropriate clothing and shoes for desert travel and bring sun block, hat, water, sunglasses, etc.

Date and Starting Time: 10/14/2011 at 9:00 a.m.

Meeting Place: Hesperia City Hall parking lot, 9700 Seventh Ave. Hesperia, CA 92345

Field Visit Tour Stops: Lucerne Valley--Highway 247 and Boone Road, two other stops in Lucerne Valley, lunch break, east side of Harper Lake on Hinkley Road, areas east of Yermo and Daggett between I-15 and I-40, and Troy Dry Lake

Lunch: Lenwood outside of Barstow next to I-15

Completion of Tour: Return to Barstow around 4:30/5:00 p.m.

Phone Contacts on Tour:

Ashley Conrad-Saydah (BLM)--916-335-2769

Serge Glushkoff (CDF&G)--916-539-5669

Roger Johnson (CEC)--916-838-2124

Scott Flint (CEC)-916-216-1379

Terry O'Brien (CEC)-916-838-2015

Tour Summary: We will make several stops in Lucerne Valley. First stop at the junction of Highway 247 and Boone Road. Two other stops in Lucerne Valley will follow. Then, drive past Lucerne Dry Lake and along Highway 247 to Barstow. Lunch will be in Lenwood outside of Barstow next to Interstate 15. After lunch, visit the east side of Harper Lake on Hinkley Road. Drive east to a potential development area east of Yermo and Daggett in the area between Interstate 15 and Interstate 40 and going as far east as Troy Dry Lake. We should be back in Barstow around 4:30 to 5:00 p.m.
