

**California Energy Commission Workshop  
DRECP Governance, Costs, and Finance  
Monday, September 24, 2012**

**QUESTIONS**

**Governance**

1. What are the key organizational elements of a governance structure (e.g., range of entities, responsibilities, and roles)?
2. How should the governance be structured assuming counties participate in the plan?
3. What is the governance structure, if counties do not sign on to the plan? If this is the case, how can the DRECP governance structure be configured to facilitate counties signing on in the future?
4. Which public agencies should have a role in the DRECP governance structure? Why? What are their roles?
5. How do we ensure adequate public and stakeholder participation in plan implementation and ongoing DRECP activities?
6. How should the DRECP governance structure address adaptive management needs, plan amendments, and other major changes?

**Costs and Finance**

1. What type and range of costs may be associated with a DRECP governance structure and plan implementation, and how should those costs be handled?
2. What are the best potential funding sources for DRECP?
3. What is the appropriate role and structure for developer fees in the plan?
