					<p>Comment Dear DRECP, NEPA/CEEQA</p> <p>I reside here in Cantil Ca. We had four generations living here in the beginning but the Honda Corp. next door made sure my family lost ALL things we worked for and our way of life, from the sand and dust. ABSOLUTELY NOTHING THAT once GREW is alive any longer. Most the family has gone and all that is left is my son and myself. In all honesty, I can not call how we exist here as living, and this has been going on for 25 years now.</p> <p>NOW, it seems that our water and rights are being stolen right from under us and we are told there is nothing we can do to stop it. The divine gift of the waters out here where I live, which I am told is called Fremont Valley, does not belong to the city dwellers far away so they can continue their waste of the precious source. I beg that this raping of our water stop and desist now, before</p>
