I am concerned in general about losing further vehicle access to our public lands due to the DRECP, especially about the two following two rockhound sites being included in the study:

BROWN BUTTE A.K.A. LONELY BUTTE:

GPS Location: 34.976746 Latitude -118.024271 Longitude

GEM HILL:

GPS at one area of collection: 34.926220 Latitude -118.22122 Longitude

Please consider current recreation use loss impacts for the proposed areas, including rockhounding, especially for the two sites mentioned above.
