Subject: DRECP NEPA/CEQA - Docket No. 09-RENEW EO-01

California Energy Commission

DOCKETED

09-RENEW EO-1

TN # 74G6J

DEC GG2014

California Energy Commission
Dockets Office, MS-4
Docket No. 09-RENEW EO-01
1516 Ninth Street
Sacramento, CA 95814-5512
DRECP NEPA/CEQA,

I am writing in regards to DRECP NEPA/CEQA - Docket No. 09-RENEW EO-01.

This is a deeply flawed project that is grossly environmentally destructive and will saddle taxpayers with onerous debt. We don't need this, what we need is roof top solar. The only people, this ill-conceived project will benefit are the people building it.

We ALREADY have the roof top real estate to use for roof top solar. Maximizing roof top solar would surpass this project's target of 20,000 megawatts and would leave the desert habitat unharmed, and save taxpayers so much money.

The proposed project will need water we don't have, to harm huge portions of native California, and use technologies that are unproven in efficiency, and create a serious dust problem.

Don't allow this ill-conceived plan to pass.

Best Regards,
Sharon Reeve
La Mesa, CA
