DOCKETED

09-RENEW EO-1

TN # 74498

FEB 11 2015

Keep our California desert recreational areas open to responsible vehicular access!!

I am one of hundreds of thousands of responsible campers and low impact off-road explorers who enjoy and respect the California deserts. We strongly support the BLM multi-use mandate and do not want our vehicular access to existing BLM recreational areas to be compromised or closed off!

Continued vehicular access to all existing BLM recreational areas in our California deserts for recreational use is essential. Where existing off-road routes become restricted because of lawful development or DRECP activities, alternative routes to allow for continued access must be created.

Supporting and promoting continued interest in and conservation of our amazing California desert areas is extremely important. The best way to achieve this is by insuring that responsible, low-impact access for travel and recreational use is kept open to the public and forever protected.

Thank you.
