

California Energy Commission
Dockets Office, MS-4, Docket No. 09-RENEW EO-01
1516 Ninth Street, Sacramento, CA 95814-5512

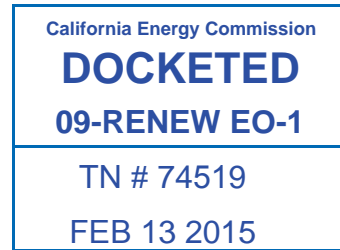

Dear Sirs:

It has come to my attention that Brown Butte (34.976746 Latitude 118.024271 Longitude) has been included in the DRECP Development Focus Area. This butte is an important site which has been used for years by several local rock clubs to introduce beginners to our hobby. Please remove that area from your plan. Thank you.

Sincerely,

William Murray

Dear Sirs:

It has come to my attention that Brown Butte (34.976746 Latitude 118.024271 Longitude) has been included in the DRECP Development Focus Area. This butte is a valuable gem and mineral site and has been used by rock hounds throughout the area. Please remove this geologic site from your plan. Thank you.

Sincerely,

William Murray

Dear Sirs:

It has come to my attention that Brown Butte (34.976746 Latitude 118.024271 Longitude) has been included in the DRECP Development Focus Area. This is an important area to introduce High School students to geologic principles outside the classroom. Please remove this geologic site from your plan. Thank you.

Sincerely,

William Murray

Dear Sirs:

It has come to my attention that Brown Butte (34.976746 Latitude 118.024271 Longitude) has been included in the DRECP Development Focus Area. This butte contains specimens of fossilized reeds, fossils and other unique geologic features illustrating geologic change for millions of years in the past. Please remove this area from your plan. Thank you.

Sincerely,

William Murray

Dear Sirs:

It has come to my attention that Brown Butte (34.976746 Latitude 118.024271 Longitude) has been included in the DRECP Development Focus Area. For many years, I have used this area to introduce people to the geology of the Antelope Valley. Please remove this area from your plan. Thank you.

Sincerely,

William Murray

Dear Sirs:

It has come to my attention that Gem Hill (34.926220 Latitude 118.22122 Longitude) has been included in the DRECP Development Focus Area. This area contains specimens of fossils; fossilize mud flows and other unique geologic features illustrating a much different climate in years past. Please remove that area from your plan. Thank you.

Sincerely,

William Murray
