Ontario Convention Center
2000 E. Convention Center Way, Meeting Room 104 B
Ontario CA 91764
(Wheelchair Accessible)

Topics to be discussed are noted below. The complete agenda and presentations will be posted prior to the meeting at www.drecp.org/meetings/index.html.

- Working Group Reports and Stakeholder Discussion
- Consultant Reports
- Follow Up on Issues Raised at the January's Stakeholder Meeting
- Public Comment

In Executive Order S-14-08, Governor Schwarzenegger increased the target for California's renewable energy portfolio to 33 percent by 2020 and established the development of the California Desert Renewable Energy Conservation Plan. The DRECP, when completed, is expected to further these objectives and accelerate the processing of renewable projects in the California Mojave and Colorado deserts.

The DRECP is a Natural Community Conservation Plan, which will help provide effective protection and conservation of desert ecosystems while allowing for the appropriate development of renewable energy projects. It will provide long-term endangered species permit assurances to renewable energy developers and a process for conservation funding to implement the DRECP. It will also serve as the basis for one or more Habitat Conservation Plans under the Federal Endangered Species Act.

The Stakeholder Committee was established to provide a forum for public participation and input into the DRECP. The list of Stakeholders is posted on the website and includes representatives of the counties in the desert region, renewable energy developers, environmental organizations, electric utilities, and state and federal agencies.

Written Comments

Members of the Stakeholder Committee or the public who wish to provide written comments on any of the meeting topics are asked to submit comments by February 28, 2011.
